

# BOOT CUFFS

Standard measurements and finished dimensions for purposes of designing crochet and knit patterns

Size	Calf measurement	Boot cuff circumference	Boot cuff height
Small	10"-13"	9"-10"***	5"-6"
Medium	14"-17"	13"-14"***	5 ½"-6 ½"
Large	18"-21"	17"-18"***	6"-7"
X Large	22"-25"	21"-22"	6 ½"-7 ½"

\*\*\*Boot cuff circumference will vary slightly depending on how tight or loose the stitch is that you're using. Example: a tunisian or single crochet stitch will be much tighter (less stretch) than a cable or lace stitch (which would be stretchier).

\*Measurement is taken at widest part of the calf
